Kahuta, Rawalpindi

Professional Summary

Motivated React Developer with hands-on experience building responsive web interfaces using React.js, Tailwind CSS, and modern JavaScript. Proficient in creating and consuming REST APIs, and experienced with version control using Git.

Strong foundation in **Software Engineering principles** including Software Development Life Cycle (SDLC), Agile methodology, requirements gathering, and modular design. Seeking junior-level or internship opportunities to apply and expand front-end development skills through real-world projects.

Skills

- **Languages:** HTML, CSS, JavaScript, Node.js, Java
- **Frameworks/Libraries:** React.js, Express.js, Tailwind CSS
- **Tools:** Git, Vite, MongoDB, VS Code
- **Other Skills:** Responsive Design, REST APIs, Axios

Projects

1.Portfolio Website

- Built a responsive personal portfolio to showcase beginner-level projects including **Product-Filter, Todo List, Grocery list, Rock-Paper-Scissors, BMI Calculator, Arithmetic Calculator**, and **Validation Form.**

- **Tech Used:** React.js, Tailwind CSS, Vite

- [Deployed Portfolio Site](https://portfolio-website-one-tau-66.vercel.app/)

- [Projects GitHub Repository](https://github.com/M-Zaid-Asif/Portfolio_Website/tree/master/src/Projects)

2.Event Organizing App (CRUD)

- Collaborated on a **group project** to develop an event management system. Implemented the backend using Express.js and MongoDB, and integrated it with the frontend via REST APIs using Axios.

- **Tech Used:** MERN Stack (MongoDB, Express, React, Node.js)

- [Event Organizing App GitHub Repository](https://github.com/M-Zaid-Asif/Event_Organizing_App)

Work Experienced

Nill

Education

- Bachelor of Science in Software Engineering

- Foundation University Islamabad, Rawalpindi Campus

- Expected graduation: June 2026

Languages

- English-Intermediate (**Listening-Advanced**)

- Urdu (Fluent)
